Did you know you can export a ggplot2 chart as an SVG and edit every element in PowerPoint?

I thought this was a well-known feature, but yesterday a tweet by Leonardo Jo (haven't found them on LinkedIn) went viral on Twitter with many users replying they hadn't known about it either. He had discovered that you can create a chart with #ggplot2 ···

Land does not vote. 🗳 🗳

With the U.S. Presidential Election just one day away, this animation illustrates the political landscape by showing which party won each congressional district in the 2022 House of Representatives election.

The animation begins with a traditional choropleth map, displaying each congressional district by its actual ···

One feature I have been looking for in #Quarto has been support for Scrollytelling.

At posit::conf(2024), Andrew Bray has just presented #Closeread - a Quarto extension that enables quite a few scrollytelling techniques in Quarto.

Closeread comes with different layouts and support for cross-fading plots, zooming in on code and images, and···
